WHO WE ARE

Dedicated to our True North guiding principles and goals, we are Compass Government Solutions, LLC. Lead by 25-year healthcare professional Tracy Balazs, RN, she has extensive experience in federal contracting in the medical industry as founder of Federal Staffing Resources, LLC, solving a nursing shortage stateside created by the need for military medical personnel in Iraq and Afghanistan. Tracy also has personal clinical and ICU experience at Walter Reed, bringing field experience and insight to lead the experienced team at Compass to serve the military and federal government.

We specialize in healthcare, military readiness, and human capital. We are committed to recognizing the passion and dedication in healthcare workers and bringing those passionate, dedicated workers to our clients delivering the highest quality of services, excellence in our daily practices, and compliance at the highest quality standards possible.

Social/Behavioral Health Programs Supported:

- Suicide Prevention programs
- Resiliency programs

Humanitarian Efforts:

- Case Management, Medical, and Social Work programs

OUR STRENGTHS

- ✓ First hand experience in providing resources to support the military and meet the demands of assigned missions
- ✓ WOSB, IDIQ, Sole Source, supporting multiple federal agencies, and LCATs
- ✓ Fluency in Federal Government contract requirements
- ✓ Accurate credentialing
- ✓ Expertise with security processes and protocols
- ✓ Compliance with rules and regulations

Compass Government Solutions has evolved from Tracy's experience in government contracting and her enjoyment of working as a small business entrepreneur. Prior to CGS, Tracy founded Federal Staffing Resources, LLC in 2004 to solve a nursing shortage stateside created by the need for military medical personnel in Iraq and Afghanistan. She led FSR for 17 years and grew it into a nationally ranked, well-known government contracting business.

Tracy now brings her experience in government contracting and small business entrepreneurship to CGS along with her 25 years of clinical experience in trauma and ICU, including Walter Reed Army Medical Center. Combining her core values of integrity and mission driven purpose with clinical experience and business acumen, Tracy is committed to ensuring our military, veterans, and family members receive the quality and compassionate care they so rightly deserve.

75% of owners and key staff bring over 10 years of first-hand experience in providing resources to support military and federal agencies along with management experience and past performance nationwide and OCONUS.

We are ready to serve!

- Agility as a PRIME, SUBCON, JV, Teaming Partner, and Mentor-Protégé

For more information about Compass Government Solutions or partnerships on federal opportunities, please contact Michelle Davidson.
